“Your denim creation starts here”

HANDS-ON TRAINING | DENIM DESIGN | TINTING | NEW TECHNIQUES

3 DAY EVENT | CLASSROOM INSTRUCTION | DYEING | CREATIVITY

DyStar

Day 1

Come learn how denim is produced and dyed. See the challenges put on the modern day denim producers. Day one comprises a combination of classroom and hands on training of the techniques and effects used in the production of jeans. Understand the specialty effects that are used in the creation of these high fashion items.

Day 2

Taking the knowledge and ideas from day one, you will spend the day in our "state of the art" laundry putting the effects into action. Washing, bleaching, dyeing, tinting, spraying, and handsanding. There will be a lot of time for practicing these hands on skills.

Day 3

This is your day to be creative. Design and produce your own pair of jeans from start to finish, using your favorite effects and looks that you have seen in the previous days. Take these home and show to your friends your newly found creativity.

Private sessions are available

DyStar Support

DyStar has a true Global team. With laundry experts in all major textile regions of the world. Your ideas and effects can be reproduced in laundries all over the world ensuring that your idea is reproduced as you intended it to be. Our laundry experts can support all your laundry partners and suppliers in development and consistency to meet the modern needs.

Sustainability

DyStar is the global textile leader. In the denim and laundry business we can help you produce your garments to the highest ecological and sustainable specifications. Our products and services help our customers (your suppliers) reduce their costs and shorten lead times and delivery on time.
